Forhexora

Learn Like a Leader

We don't just teach skills – we engineer future-proof talent that companies actually want to hire.

About Our Company

Vision Statement

- To be the leading catalyst in transforming students into industry-ready professionals by bridging the gap between academic knowledge and real world skills.
- Fostering a future workforce that excels globally with confidence and competence.

Mission Statement

- To provide comprehensive, practical, and industry-aligned training programs that enhance technical, communication, and interpersonal skills.
- To empower students with the confidence and discipline needed to excel in competitive job markets.
- To collaborate closely with educational institutions and industry partners to ensure relevant and up-to-date placement preparation.
- To motivate and mentor students in overcoming barriers such as laziness and carelessness, fostering a proactive learning attitude.
- To continuously innovate and adapt our training methodologies to meet the evolving demands of the job market.

- Cognitive & Analytical Skills

- Management Skills

- Communication & Interpersonal Skills

Content Skills Overview

Fundamentals of Programming

- Input/output Statements
- Conditional Statements
- Iterations
- Series
- Patterns
- 1D Arrays, 2D Arrays
- Functions
- Recursions

Data Structure & Algorithm

- Linked List
- Stack
- Queue
- Trees
- Graphs
- Heap

Content Skills Overview

Design and Analysis of Algorithm

- Graph Algorithms
- Dynamic Programming
- Greedy Algorithms
- Heap / Priority Queue
- Binary Search
- Backtracking
- Union-Find
- Bit Manipulation

Database Management System

- Fundamental
- Architechture
- Relational Model
- SQL
- Database Design
- Transaction
- Concurrency Control
- Storage
- Indexing

Content Skills Overview

System Design

- Core System design
- Designing for Scalability
- Database
- Storage Design
- Reliability
- Fault Tolerance
- Isolation
- Communication
- Authentication

Cyber Security

- Penetration Testing
- Bug Bounty
- Ethical Hacking
- IDS & IPS
- Phishing Detection
- SIEM Tools
